# HEADS UP, FINAL TABLE

## HEADS UP, FINAL TABLE

(P.Windrum)

Let's play some poker. Hah-Hah!  
We're down to the final six players.  
Shuffle up and deal.

A tournament we're here to play.  
Texas Hold'em entry paid.  
For five long days I've played my best.  
When it's all done I'll get some rest.

Heads up, final table  
All win, who's gonna win?

A nut hand flop I'd like to see.  
Where the turn and the river won't bother me.  
But luck will have to play its part.  
Flush possible if he's got two hearts.

Heads up, final table  
All in, who's gonna win?  
(Repeat)

It's my move I've got to bet  
Pocket pair, but I won't raise yet.  
There's the turn, oh lucky me.  
It's an ace now I have three.

All my chips I'm putting in.  
Calls my bet to see the end.  
I've got aces, he's got spades.  
One on the river, he's getting paid.

Heads up, final table  
All in, who's gonna win?  
(Repeat)  
Take it away boys.

On the river will I float,  
or will this card be my sinking boat?  
Standing here with knees locked up.  
It's a diamond I just up.

Heads up, final table.  
All win, I've got the win.  
(Repeat)

Put on your fancy dress baby, cuz I'm  
coming home to you with me pockets full. Hah-Hah.

Heads up, final table  
(Repeat 3 times)

Nex week I'm playing again! Hah-Hah!

## PATIENCE

(P. Windrum)

I pulled my chair up to the table.  
Chips for cash, I'm ready and able.  
Here comes the deal, I'll pay for the flop.  
To call a raise I might have to drop.

My cards could be better, but I like to play.  
My stack ain't growing, it's fading way.

Patience, to toss in those cards.  
Patience, to wait for the good ones.  
Patience, if I bide my time.  
The payoff will be worth the wait.

I've got a pair and possible straight.  
Over cards, it's not looking great.  
I called the raise, now I'm gonna chase.  
A seven, a ten, the rivers an ace.

My cards could be better, but I like to play.  
My stack ain't growing, it's fading way.  
I need Patience, to toss in those cards.  
Patience, to wait for the good ones.  
Patience, if I bide my time.  
The payoff will be worth the wait.

Oh yeah, the payoff will be worth the wait.

I've tossed three hands and here I sit.  
On the deal, I get big slick.  
Now I'll raise to see the flop.  
And see who now decides to drop.

My cards are now better and this one I'll play.  
My stack it's growing, not fading away.  
I got  
Patience, I tossed in thoses cards.  
Patience, I waited for the good ones.  
Patience, I bided my time.  
The payoff has been worth the wait.  
(Repeat 2 times)

Patience, Patience, Patience  
I bided by time.  
The payoff has been worth the wait.  
(Repeat 2 times)
